

# Documentation of Public Meeting

## Project Location

Hays County

Ranch-to-Market 150

CSJ: 0805-04-028; 0016-17-013

## Project Limits

From I-35 to Ranch-to-Market 150 West of Kyle

## Meeting Location

Hays County ISD Performing Arts Center

979 Kohlers Crossing, Kyle, TX 78640

## Meeting Date and Time

October 25, 2018 from 4:00 p.m. to 7:00 p.m.

## Translation Services

Spanish translation available at meeting

## Presenters

N/A

## Elected/Public Officials in Attendance

Commissioner Mark Jones, Hays County, Precinct 2

Council Member Tracy Scheel, City of Kyle, District 2

## Total Number of Attendees (approx.)

98

## Total Number of Commenters

37

## Contents

## A. Comment/Response Matrix

Commenter Number	Commenter Name	Date Received	Source	Comment	Comment Topic	Response
1	Genest Harding	10/25/2018	Comment Card	I prefer D-1 to avoid the organic farmer on Opal. No to D-1 D-3 [Called Ms. Harding to verify preferences: opposes D2, prefers D1 or second preference D3]	Opposition to D2 Preference for D1 or D3 (2nd preference)	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.
2	David Allen	10/25/2018	Comment Card	Route choice A1 to B2 to Roland lane S. to I 35 and Yarrington overpass	Preference for A1, B2	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.
3	Rose Perez	10/25/2018	Comment Card	The proposed orange (A2) and purple (A1) routes directly behind the homes in Arroyo Ranch will have impacts on residential displacements. It will also impact the water runoff areas. Both proposed routes would enter 150 in an area that would increase already dangerous conditions. There is a ridge there which currently makes exiting Arroyo Ranch difficult. The area directly across 150 from Arroyo Ranch is already approved for a very large new subdivision. When you add current Arroyo Ranch residents exiting onto 150 with the new subdivision and the proposed orange + purple with no traffic control devices with the ridge...I believe this will have fatal consequences. The proposed yellow (P5/P6) plan appears to be the safest route. Either way I would like all routes as far away from the back of Arroyo Ranch property line.	Opposition to A1, A2 Preference for P5, P6 Displacement and drainage impacts Safety at Arroyo Ranch Rd. and RM 150 Development north of Arroyo Ranch	Right of way impacts and potential displacements will be considered in the evaluation and elimination of preliminary alternative segments shared at the meeting.  Hydrology studies and drainage needs are a part of the design process and additional work will be completed once there is a recommended route.  Sight distance and safe turning radii will be evaluated for all intersections as a part of this study. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.  Planned and platted developments in the area have been noted and will be considered as the study progresses.  Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.
4	Reid McCoy	10/25/2018	Comment Card	My comment on the criteria for analyzing various segments: I would think it is important to consider if adequate drainage is available, and also to consider the impact to water quality of the various routes to the Blanco River and various creeks.	Drainage and water quality in evaluation criteria	Hydrology studies and drainage needs are a part of the design process. Topography and drainage evaluations will be completed to identify needed drainage treatments.  Water quality will be considered in the evaluation for the category "Acres of Impervious Cover in Edwards Aquifer (Contributing and Recharge Zones)."
5	Anna Boling	10/25/2018	Comment Card	Aside from D-2 going right through my house, I feel that D-1 (1st choice)+ D-3 are better options. Traffic flow seems better under D-3 + Roland lane (+ existing easements) work for D-1, although Wildcat Hollow people may not like that. D-3 seems least disruptive and most straight forward. D-2 - we have hundred thirty-six live oak trees around the house, some quite large. It would be awful to lose them. We've spotted many birds including some that should not even be in this area. We work + live on the property. I also think that D-2 is too close to Opal Lane + other homes. No native trees on D-3. Another "pro" for D-3 (at least not near my property + I don't think that there are any across the street). I got a few calls from a gas pipeline company. Are you also working with them? I have denied them voluntary access to my 6 acres, although we are aware that we may have no choice at some point.	Preference for D1, D3 (2nd preference) Opposition to D2 Environmental impacts to trees and birds Gas pipeline	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.  The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and considerations such as personal property, wildlife, vegetation, and trees will be evaluated and considered within the EIS.  The project team is aware of the plans for a natural gas pipeline, which is not associated with this project. Utility coordination would begin later in the process, once a preferred alignment is identified.
6	Rosalio & Angelita Tobias	10/25/2018	Comment Card	Preference #1 D2 - in between 2 properties (plenty of space) #2 - D3 - behind our house - more ideal; road would be straighter D1 would run right in front of house and too winding (safety); would impact view; impacts more homes	Preference for D2, D3 (2nd preference) Opposition to D1	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.
7	Rosalio Tobias	10/25/2018	Comment Card	In looking at map we suggest that B2 (white) on map come straight and intersect with C-1 (orange) on map - a much straighter route and would cost less money - safer road than winding as it shows on B-1	Preference for B2, C1	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.
8	Mary Jo Herrin	10/25/2018	Comment Card	I believe A-1 is the best route that would pull some of the traffic away from the entrance to Arroyo Ranch. It needs a center turning lane to allow us to safely enter our neighborhood.	Preference for A1 Safety concern at Arroyo Ranch and RM 150	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.  Sight distance and safe turning radii will be evaluated for all intersections. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.
9	[Not provided]	10/25/2018	Comment Card	Would it be possible to consider the lighting for the new roadways to be compatible with Dark Skies programs	Road lighting	It is now standard practice to install more energy efficient, TxDOT-approved LED luminaires for roadway lighting. As the environmental study progresses, more information will be provided regarding highway lighting.
10	Dan & Karen Evans	10/25/2018	Comment Card	Please make sure that all of your display maps show this area as a floodplain. Thanks. The area circled is part of the floodplain. The map on this sheet is correct, but another map in your display is incorrect and shows no floodplain.	Floodplain exhibit	The map of preliminary alignment segments did not have any floodplains noted, but environmental considerations were shown with the environmental constraints map (including floodplains). Floodplains will be identified and evaluated for any considered alignments and we will continue to update exhibits with additional information as data is gathered.
11	Sharon Michaelis	10/25/2018	Comment Card	The northend of Alternative Segment A-1 dead ends at FM 150 across from my existing entrance as shown on a attached satellite photo copy. I do not want my ranch entrance part of a major intersection. I do not intend to subdivide and do not want an extension of the roadway north of 150 on this part of my property. It is part of a 288 acre property on the National Register of Historic Places.	Opposition to A1 Michaelis Ranch entrance Historic property	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.  The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and considerations such as personal property and historic sites will be evaluated and considered within the EIS.
12	Jubal Grubb	10/25/2018	Written Comment	Thank you for the open house and opportunity for input. There is a section of the project that I would like to bring to your attention that has generated much concern for many residents in the neighborhoods along RM 150 from Arroyo Ranch at Arroyo Ranch Road to at least Hometown Kyle at Hawthorn Drive (and beyond to the east). The intersections along RM 150 from Arroyo Ranch Road (shown in the included figures) appear to have become especially dangerous in the past several years. We have lived in the neighborhood for nearly 15 years and have observed an increase in near-miss incidents and actual collisions. This information is not anecdotal, and data records can be seen on the state's crash record information system ( <a href="https://cris.dot.state.tx.us/public/Query/app/public/welcome">https://cris.dot.state.tx.us/public/Query/app/public/welcome</a> ). I have personally been in several near-miss incidents, and they happen from both the east and west bound traffic. Additionally, the neighborhoods would benefit considerably from the installation of bike lanes and sidewalks. In their current state, residents have only one mode of transportation to consider when they need to leave the neighborhood for goods and services. Having other means of getting from the neighborhoods to other nearby areas would help to connect communities, and would bring the transportation system to at least the same level of modernity as surrounding areas that have sidewalks and bike lanes.  Problems to Consider: Hazardous Intersections at Neighborhood Entrances - At Arroyo Ranch – East bound traffic on approach to the entrance of the Arroyo Ranch neighborhood is typically traveling above the speed limit. Sometimes they are not. Either way, they have a limited sight distance problem – as they travel east towards the entrance they are traveling uphill, and as they crest the hill they are presented with a short distance, approximately 750 feet, to the entrance of the neighborhood. Vehicles leaving the neighborhood, that turn right (eastbound), are very frequently overtaken and most often tailgated and harassed by east bound RM 150 traffic. If they pass and speed ahead then they are endangering the vehicles that are coming out of or going into the other neighborhoods (Dove Hollow for example). West bound traffic on approach to the Arroyo Ranch neighborhood must slow down to turn into the neighborhood. It happens time and time again, so frequently that I have lost count that west bound traffic has nearly collided into my vehicle from behind. The Crash Record Information System shows data that indicate the intersection has become more dangerous over time. The problem is bad at the intersection at Arroyo Ranch, but not exclusive to that intersection. All of the neighborhood intersections east of Arroyo Ranch experience some version of these problems. Vehicles (people) coming from and going to Meadow Woods, Quail Meadows, Dove Hollow Estates, and every small ranch in between Arroyo Ranch and Jack C Hays Trail (FM 2270/ Old Stagecoach Road) experience this.  Lack of Biking and Walking Infrastructure: Communities Lacking Sidewalks and Bike Lanes Biking and walking along RM 150 is terribly hazardous. In order to access goods and services in the nearby areas in the least hazardous way people must travel by motor vehicle. The area around Arroyo Ranch will potentially have a bypass route turning south from RM 150 just west of Arroyo Ranch Road, and that new road may help some, but the very large ranch to the north of Arroyo Ranch neighborhood has submitted application to subdivide. The conceptual plans for that development include construction of possibly several thousand new homes. In short, the area is poised for tremendous population increase, i.e., vehicle increase, and the currently [sic] communities in the area are completely vehicle dependent. "Bicycling and walking historically have been important means of transportation and recreation in the United States. Since World War II, however, the development of automobile-oriented communities has led to a steady decline of bicycling and walking. These activities became lost in the dustbin of history and limited to childhood play. During the past few years, however, a renaissance has occurred with impressive increases in the number of people who bicycle and walk for transportation and recreation.  [Continued on next page]	Safety concern at Arroyo Ranch and RM 150 Bicycle and pedestrian accommodations Safety improvements to existing RM 150 Speed limit, lighting, and design suggestions Public involvement notifications	Sight distance and safe turning radii will be evaluated for all intersections. Additionally, safety comments (including your comments on limited sight distance, lower speed limits, and modifications of RM 150 to three lanes) for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.  We are in the early planning stages for this project and are working to identify a preferred location for the RM 150 realignment. Once a preferred alignment is identified, more detailed design work will include identifying bicycle and pedestrian accommodation, safety features, and lighting elements will be incorporated. Notification for public meetings and project updates will continue to be shared.

Commenter Number	Commenter Name	Date Received	Source	Comment	Comment Topic	Response
				<p>Record gas prices, a gridlocked transportation system, increasing health maladies related to physical inactivity, and environmental concerns have led to a reexamination of the transportation choices available in this country and to a subsequent shift from driving to more walking and bicycling. Today, people of all ages, income groups and fitness levels use walking and bicycling for everyday travel, recreation, and getting to and from work. It is important to remember that approximately one-third of the population is unable to drive – because of age, disability, choice or license restrictions – so bicycling and walking are important transportation options. Public transit, which is primarily reached on foot or by bicycle, also has experienced significantly [sic] increased use during the past few years. Pedestrians and bicyclists suffer the effects – sometimes fatal – of a transportation system that does not account for their needs. All road users – including motorists, bicyclists and pedestrians – must act responsibly and follow the rules of the road for their own and others’ safety. It lies with state governments, however, to play the primary role in ensuring that roads are safe and accommodate all users.</p> <p>Many people are bicycling and walking more because of the many benefits these transportation choices provide. Walking and bicycling offer cheap, effective ways to reach a destination, especially with the likelihood of higher gas prices. Furthermore, they provide a variety of benefits to individuals and society. Both are clean forms of transport that emit no pollutants. With disturbing increases in diseases and ailments related to lack of exercise, active commuting also is an effective way to combat diseases related to inactivity, especially for those who have time constraints. Communities where destinations are east to reach by bike and foot create a more balanced transportation system and more welcoming neighborhoods.” (Referenced from Shinkle, D., Tiegen, A., "Encouraging Bicycling and Walking, The Legislative Role", National Conference of State Legislatures, November 2008)</p> <p>Solutions to consider: Widen RM 150, center Flush Median, Increased Shoulder Width. Increasing safety and decreasing congestion should be a primary objective for this project. To this end, widening the roadway, installing a flush center median (continuous center turn lane), and increasing shoulder width would provide a much needed margin of safety for the traveling public in this area. Additionally, installing acceleration lanes for vehicles right-turning out of neighborhoods and deceleration lanes for vehicles right-turning into neighborhoods, would help decrease risk of collisions, and enhance mobility in general.</p> <p>Night time visibility along this stretch of road can be enhanced by installation of lighting along the route, or at least by increasing the lighting at neighborhood entrances.</p> <p>Biking and Walking Infrastructure: Sidewalk Installation along RM 150 – Connecting Communities - Enable alternative means of transportation and enhance community connections by the installation of installing biking and walking infrastructure, i.e., continuous sidewalk from Arroyo Ranch to Old Stagecoach, and from Old Stagecoach to City of Kyle. Doing this will connect the following neighborhoods (from west to east): Arroyo Ranch neighborhood at Arroyo Ranch Road, Meadow Woods neighborhood at Sunflower Drive, Quail Meadows neighborhood at Quail Meadow Drive, Dove Hollow neighborhood at Dove Hollow Drive, Plum Creek neighborhood, Hometown Kyle neighborhood at Autumn Sage Parkway and Hawthorn Drive, Brooks Crossing neighborhood at Roy Brooks Avenue, and the neighborhood at Silverado Drive (where a sidewalk begins there and continues toward the City of Kyle). All of these neighborhoods would benefit tremendously from sidewalk installation. In order for anyone in these neighborhoods to access goods and services in the nearby area they must travel by motor vehicle. It is unsafe to attempt to bicycle from any of these neighborhoods, and there is no place to safely walk along the side of the road. Communities will be connected to each other, to stores, services, food and retail outlets, convenience stores, the post office, banks, schools, city government.</p> <p>Reducing the Speed Limit - Additionally, the speed limit should be reduced significantly in the affected area. Reduced speed should begin well before and to the west of Arroyo Ranch and continue as reduced speed all of the past Jack C Hays Trail (FM 2270/ Old Stagecoach Road). Consider also that these problems are going to be compounded significantly when development begins and more houses are built on the north side of RM 150 right across the street from Arroyo Ranch neighborhood. There is an application to subdivide notice posted in the vicinity, and the master plan/ concept shows several hundred houses planned in the next few years. For now, the sign on RM 150 (to the west of Arroyo Ranch) simply indicates that there is limited sight distance ahead but does nothing to slow vehicles cresting the hill. If possible, rumble strips, flashing light intersection indicator, electronic radar speed indicator signage, or something is needed in the near-term.</p> <p>Summary:</p> <ul style="list-style-type: none"> <li>• Widen the existing 2-lane undivided highway to a 2-lane (or 4-lane) highway with a flush median (continuous left turn lane)</li> <li>• The typical section would consist of 2 (or 4) 12-foot travel lanes, a 16-foot continuous left turn lane, six-foot bike lanes, and five-foot sidewalks.</li> <li>• Reduce the speed limit from 55 to 45 beginning west of Arroyo Ranch Road.</li> <li>• Increase lighting at key intersections including neighborhood entrances.</li> <li>• Bonus: roadway beautification through pollinator planting.</li> </ul> <p>I would appreciate if you would consider these safety and infrastructure development concerns, and incorporate these solutions into the planning, concepts, schematics, and final design.</p> <p>Also, I would greatly appreciate if you would keep the communities informed of the next public involvement events through postcard mailouts.</p> <p>Figures attached include only RM 150 between Arroyo Ranch and Jack C Hays Trail (FM 2270/ Old Stagecoach Road). However, the facility improvements proposed include from Arroyo Ranch Road to City of Kyle. The area between Arroyo Ranch and Jack C Hays Trail has significant need of these improvements, and I would suggest that the project begin in this area.</p>		
13	Ernest & Denise Cortez	10/27/2018	Email	We would prefer to go with Yellow route, P5. This looks to be further from our neighborhood.	Preference for P5	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.
14	William Atkinson	10/29/2018	Email	Why were the P5 & P6 alignments added? Will they line up with the section of the Kyle Loop going through the Anthem project (north of W FM 150 and west of Hays Highschool)? Both the City of Kyle and Hays County Transportation Master Plans have the FM 150 Bypass aligning with the Kyle Loop to help create a future loop system. Please reach out for further details. I can send documentation for both TMP's.	Question on P5 and P6 Anthem development City and County Plan Coordination	P5 and P6 were preliminary alternative segments added by the public at the Aug. 2, 2018 public meeting. All preliminary alternative segments proposed by the public during the Aug. 2 meeting were screened and removed if the segment was previously evaluated, did not meet design safety criteria, impacted cemeteries or 4(f) properties, required a new railroad crossing, or bisected existing neighborhoods.
						The location of the intersection with existing RM 150 and the Anthem Development will continue to be evaluated. In addition, close coordination with the City of Kyle and other planning efforts will continue throughout this project.
15	Leon Barba	10/29/2018	Email	The section of the proposed roadway identified as D3 will be going through a proposed development known as the Paramount Subdivision (formerly Driskell property, now owned by Intermandeco). Plans are under review by the City of Kyle. Construction expected to start within a few months.	Development plans in D3 alignment	The project team is coordinating with the City of Kyle to identify planned and future developments in the area. Plans for the Paramount Subdivision have been shared and noted. In addition, close coordination with the City of Kyle and other planning efforts will continue throughout this project.
16	Hector & Holly Garcia	10/30/2018	Email	We live in Arroyo Ranch subdivision and have MAJOR concerns about the FM 150 connection west of our neighborhood. A hill blocks the view when enter/exiting our neighborhood, which is extremely dangerous. There have been many accidents at our entrance and additional traffic that close to us would only increase the danger. The proposed connection(yellow option) would be much better for all involved. The connection to I-35 is a great idea, just praying you all hear our concerns and not put the connection west of our neighborhood. We appreciate your consideration.	Safety concern at Arroyo Ranch and RM 150 Preference for P5, P6	Sight distance and safe turning radii will be evaluated for all intersections. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.
						Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.
17	Larry Simone	10/30/2018	Email	Need a 3 lane bridge on 150 at Waterleaf. Guard rail hit and destroyed 7 times this year. You made a 3 lane upgrade to the entire 150 east but the narrow bridge was never widened. What you all thinking. Help	Waterleaf Boulevard at RM 150 bridge	Waterleaf Boulevard is outside of the project limits, and improvements at that intersection will not be included as a part of this project. Your comment has been noted and shared with Hays County and TxDOT.
18	Andrea Kume	11/1/2018	Email	I am concerned about the safety of the 2 routes that are proposed north/west of Arroyo Ranch road. Those routes appear to intersect FM 150 at a spot where there is a curve and a blind hill. It is already difficult and somewhat dangerous to turn into Arroyo Ranch and get out of Arroyo Ranch onto FM 150. This would just increase the traffic flow very near the entrance to that subdivision. Additionally, if Arroyo Ranch Road eventually becomes a pass through, it will make the neighborhood dangerous for the families who live there. Please take this into consideration. The more southern route appears to be safer for Arroyo Ranch residents and it appears that route would not impact any neighborhoods as greatly.	Safety concern at Arroyo Ranch and RM 150 Concern for cut-through traffic in Arroyo Ranch neighborhood Opposition to A1, A2	Sight distance and safe turning radii will be evaluated for all intersections. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.
						There are no plans to make new connections to the Arroyo Ranch neighborhood. The current configuration of roads in the Arroyo Ranch neighborhood only serves the local residents. The A2 route is adjacent to the neighborhood but does not provide additional access. To view a map of the preliminary alternative segments shared at this meeting: <a href="http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf">http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf</a>
						Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.
19	Mark Wistey	11/3/2018	Email	The Urban Road Configuration shows bicycles riding in the gutter. This is impossible due to city/county use of "wheel trap" storm drains, which slope suddenly sideways and trap the front wheel, throwing the biker into traffic. RM150 should implement bike-safe storm drains like parts of Post Road in San Marcos. Also, the Rural Roadway Configuration shows bicycles riding on sidewalk, which is dangerous to everyone involved: vehicles crossing the sidewalk will collide with bicycles, and pedestrian-bicycle collisions. Placing stop or yield signs at every crossing and driveway on the sidewalk or "bike path" hinders bicycles relative to the flow of traffic on RM150 itself, in violation of Texas Transportation Code 551.101. Instead post signs indicating "Yield to bike path." For example: <a href="https://guelph.ca/living/getting-around/bike/cycling-facilities/#ltab5">https://guelph.ca/living/getting-around/bike/cycling-facilities/#ltab5</a>	Bicycle accommodations Bike safety and regulations	The urban and rural roadway configurations shown at the meeting are examples of what the roadway could look like. Safety features for all modes of travel will be incorporated into the design of the roadway once a preferred alignment is identified.
						The bicycle accommodations illustrated in the urban road configuration include a dedicated bike lane approximately 5ft wide, which is a continuation of the roadway pavement. The lane would be visibly striped, and cyclists would not be riding in a gutter along the roadway.
						The pedestrian and bicycle accommodations illustrated in the rural road configuration include a shared-use path. This is a pathway that is wider than a sidewalk, approximately 10ft wide, and used by both pedestrians and cyclists. Shared-use paths are typically striped to prevent conflicts between pedestrians and cyclists. The shared-use path will be approximately 10ft wide.
20	Roger Falk	11/5/2018	Email	Be sure to keep this vital lifeline through downtown Kyle - adding a continuous turn lane.	Center turn lane on existing RM 150	This study is for the new alignment for RM 150. While a no build alternative will be evaluated, expanding the existing RM 150 from near Arroyo Ranch Rd. to the City of Kyle was eliminated due to the impacts to structures through downtown Kyle.
21	Lila Knight	11/5/2018	Email	I could use another week. You know, with the election this week and all. lol	Public input process	Public comments are always welcome and we will include additional comments in the next report.
22	Robin Robinson	11/5/2018	Email	Are you in discussions with how the new proposed 150 project will be placed in conjunction with the new Permian Oil and Gas pipeline that is supposed to also come through this same area? Just wondering if you are in discussions with them since both may affect our property.	Gas Pipeline	The project team is aware of the plans for a natural gas pipeline, which is not associated with this project. Utility coordination would begin later in the process, once a preferred alignment is identified.

Commenter Number	Commenter Name	Date Received	Source	Comment	Comment Topic	Response
23	John Reilly	11/5/2018	Email	Please don't design a rain water runoff from the widened road down the culvert on Rocking M road. There is already run off out of the PEC property that exceeds the culvert on the only side of the road where a usable culvert exists. Residents are already battling large rain run off, more might reach a critical level.	Drainage	This study will evaluate topography and drainage to identify the needed drainage treatments.
24	Steve McCrady	11/6/2018	Email	It appears to me that D1 provides the best early route and that B2 provides the best route in that section. My concern is over the intersections with Old Stagecoach. As I am sure you know, Old Stagecoach is the primary cycling route from Austin to San Marcos with several large groups of riders on that road every weekend. My fear is that all it takes is one careless driver not paying attention to take out a large group. Is there going to be any kind of overpass to keep traffic moving through there without putting cyclists at risk?	Preference for D1, B2 Old Stagecoach and RM 150 intersection Bicyclist safety Overpass	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.  This study is still in the early phases to identify a preferred location for the RM 150 alignment. Once a preferred alignment is identified, the design phase for the roadway will begin and safety features will be incorporated. Additionally, more evaluations of intersections will be done to consider different treatments such as lights and overpasses.
25	Roy Baldrige	11/7/2018	Email	Thank you for all the displays and personnel you provided at this meeting. Especially the display regarding the criteria that will be used to determine the final route of the roadway. After reviewing this information, I would like to provide my recommendation for your consideration and I hope it meets the criteria established for approval. I support the route as follows; "A" to "A2" to "B2" to "C" to "D2" & "D3" (I suggest D2 be combined with D3 behind and to the North of the row of houses on Roland Lane, forming a gentle curve toward Roland Lane) I do not think the double curve of "D2" is the safest route. Thank you for allowing me an opportunity to comment.	Preliminary Alternatives Criteria Opposition to D2 Preference for A2, B2, C1 Suggested connection of D2 and D3	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.  The suggested preliminary alternative segment connecting D2 and D3 has been shared with Hays County and TxDOT staff for evaluation.
26	Gloria de Leon	11/7/2018	Email	The proposed roadway is TOO CLOSE to our neighborhood and will directly affect 20 homeowners. This road should expand the boundary away from this edge of our neighborhood. As is, the increased noise, fumes and pollution will have a negative impact on the entire neighborhood. We are against the road as proposed and suggest a wider buffer between the road and our property lines. Thank you.	Impacts to neighborhoods	The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and considerations including impacts to neighborhoods, personal property, traffic noise, and air quality will be evaluated and considered within the EIS.
27	Damiano Hammond, Francesca M	11/8/2018	Email	I was really disappointed to understand that the developers/engineers shared that they haven't gotten any feedback regarding the expansion of 150 in Kyle, Texas. My husband, myself and my oldest son are some of the original home owners in Arroyo ranch. We have watched the development in our own immediate neighborhood as well as the City of Kyle. We are active readers of information and have attended meetings regarding the expansion. I'm sad to hear the meeting I didn't attend that supposedly there haven't been any contest to the proposals. You are correct, because the first any of us actually heard or saw of the proposal was the night of Oct 26th. I have a concern for the proposed routes that make Arroyo Ranch a Drive through for 150. This is neighborhood, with families and children. Shame on the developers who cannot see that and think this is a safe idea. When was the last time you tried to turn into our neighborhood and pray to God that the person coming up on your rear stops so that you can make the L into the neighborhood. Or better yet, try to make the Right out with a hill blocking your view? I understand that a road and route is much needed. I'm not sure all the options are even considered viable. I would ask that you consider the yellow routes that are on the proposed plans P5. Thank you for the time and appreciate the consideration.	Concern for cut-through traffic in Arroyo Ranch neighborhood Safety concern at Arroyo Ranch and RM 150 Preference for P5 Public notification process	There are no plans to make new connections to the Arroyo Ranch neighborhood. The current configuration of roads in the Arroyo Ranch neighborhood only serves the local residents. The A2 route is adjacent to the neighborhood but does not provide additional access. To view a map of the preliminary alternative segments shared at this meeting: <a href="http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf">http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf</a>  Sight distance and safe turning radii will be evaluated for all intersections as a part of this study. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.  Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.  Your contact information has been confirmed in the contact database and your mailing address was included in previous public meeting notifications. Your email address has been added and you will receive all emailed and mailed notifications for this study, unless you chose to unsubscribe. 28	Francesca	11/7/2018	Email	Please consider P6. the others are too close to kids and buses.	Preference for P6	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.
29	Colleen Villarreal	11/7/2018	Email	In regards to the 150 expansion meeting last week, some of the proposed recommendations are troubling in regards to my neighborhood. The purple and orange routes are projected to go directly against the back property lines of Arroyo Ranch with the 150 high speed roadway. (The purple one is 200 ft away from the property lines of Arroyo Ranch) Both of those will enter just west of us on the other side of the hill. Exiting our neighborhood is already difficult and this along with the projected new neighborhood that will be built across from us will make the road even more dangerous. If this project does go forward, TXDOT could/would consider eventually buying the land at the end of Arroyo Ranch and making a direct cut through to the 150 expansion which would make our neighborhood a drive through. I am an Arroyo Ranch resident and do not agree with the proposed changes.	Safety concern at Arroyo Ranch and RM 150 Concern for cut-through traffic in Arroyo Ranch neighborhood	Sight distance and safe turning radii will be evaluated for all intersections as a part of this study. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.  There are no plans to make new connections to the Arroyo Ranch neighborhood. The current configuration of roads in the Arroyo Ranch neighborhood only serves the local residents. The A2 route is adjacent to the neighborhood but does not provide additional access. To view a map of the preliminary alternative segments shared at this meeting: <a href="http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf">http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf</a>
30	Rebecca Eichen	11/7/2018	Email	I have come to learn of the possibility of this expansion going through the neighborhood of Arroyo Ranch. Please know that this neighborhood is not ok with this proposal and plans to fight it should the city/state decide to move forward with this agenda. Please know that we certainly support growth and expansion for our community, however we will not stand by while you destroy our neighborhood and safety by sending unnecessary traffic through a dense suburb filled with children living directly on the main road of potential traffic. Please consider any alternative that does not involve a cut through of our neighborhood.	Concern for cut-through traffic in Arroyo Ranch neighborhood	There are no plans to make new connections to the Arroyo Ranch neighborhood. The current configuration of roads in the Arroyo Ranch neighborhood only serves the local residents. The A2 route is adjacent to the neighborhood but does not provide additional access. To view a map of the preliminary alternative segments shared at this meeting: <a href="http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf">http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf</a>
31	Robin Taylor	11/7/2018	Email	My name is Robin Taylor and I am a resident of Arroyo Ranch neighborhood. I want to let you know that I 100% disagree with the decision to implement the purple and orange routes behind our back property lines. Getting in and out of our neighborhood is already difficult. Please do not consider opening up Arroyo Ranch as a thru way, you will totally destroy our neighborhood and values of our homes. Please consider the yellow (P5) route.	Opposition to A1, A2 Preference for P5 Concern for cut-through traffic in Arroyo Ranch neighborhood	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.  There are no plans to make new connections to the Arroyo Ranch neighborhood. The current configuration of roads in the Arroyo Ranch neighborhood only serves the local residents. The A2 route is adjacent to the neighborhood but does not provide additional access. To view a map of the preliminary alternative segments shared at this meeting: <a href="http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf">http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf</a>
32	Debra Courtney	11/8/2018	Email	We have lived in Arroyo Ranch for 15 years, and I have lived in Kyle since 1982. I am abundantly aware of its growth. I attended the first two Improve 150 meetings, where all of the options were laid out and then reduced to two. My primary concern with the remaining possible corridors has always been the possibility of a cut-thru from Arroyo Ranch, although I just heard that it was being discussed only recently. Just because you CAN make it convenient for drivers, doesn't mean you HAVE to. But you damn well better respect the safety of our children in your effort to "improve safety along the existing RM 150 roadway." There is nothing safe about deliberately funneling more traffic through a residential neighborhood. Our kids ride their bikes, play ball and run back and forth from each others' houses, safe in the knowledge that people aren't speeding through the neighborhood trying to get to San Marcos 2 minutes faster. The school district has reduced the number of bus stops, requiring kids to walk farther at the exact same times drivers would be enjoying these "additional connections" to the transportation network in this rapidly expanding area." I don't want to see my little community become another Shady Hollow, and I'm pretty sure no one in a decision-making capacity would want that for their community.	Safety concern at Arroyo Ranch and RM 150 Concern for cut-through traffic in Arroyo Ranch neighborhood	Sight distance and safe turning radii will be evaluated for all intersections as a part of this study. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.  There are no plans to make new connections to the Arroyo Ranch neighborhood. The current configuration of roads in the Arroyo Ranch neighborhood only serves the local residents. The A2 route is adjacent to the neighborhood but does not provide additional access. To view a map of the preliminary alternative segments shared at this meeting: <a href="http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf">http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf</a>
33	Greg Southard	11/8/2018	Email	As a Hays County taxpayer, I want to express my support for the proposed Alignment B2 over Alignment B1. First and most importantly Alignment B2 is within Corridor C, which was identified previously as the "Preferred Corridor" (whereas B1 is not). Corridor C was characterized as "Preferred" for several valid reasons as stated in the documentation from the Public Meeting held on August 2, 2018, being: [1] Consistent with the Hays County Transportation Plan; [2] Provides the most feasibility constructability; [3] Avoids impacts to business and public facility resources; [4] Allows for wider range of alternative alignments; [5] Best meets transportation needs of the study area; [6] and Balances human and natural environmental impacts without inhibiting future growth and development of the community. I assume that all these reasons were carefully considered by stakeholders and if the proposed alignment were to be constructed outside of Corridor C (e.g., Alignment B1), it completely goes against the RM 150 Corridor Evaluation as stated, published, and supported by RM 150 Alignment, Hays County, and TxDOT. Other reasons to support Alignment B2 over Alignment B1 are that B2 is a shorter route (less cost to construct) and more of a straight path (improved safety due to less turns), both which support the stated purpose of the proposed project "to relieve congestion and improve safety along the existing RM 150 roadway from west of Kyle to I-35". Another area of concern is that Alignment B1 will cross twice as many stream crossings as B2, increasing the cost of construction as well as have the potential for greater impacts to the environment. As a scientist with over 20 years of experience with assisting in managing and protecting the state's aquatic resources, I also have concerns with Alignment B1 in regards to the environmental and aquatic impacts associated with the construction and use of this proposed route. The EPA maintains that "Roads, highways, and bridges are a source of significant contributions of pollutants to our nation's waters" [ <a href="https://archive.epa.gov/owow/NPS/roads.html">https://archive.epa.gov/owow/NPS/roads.html</a> ]. The proposed route for Alignment B1 is much closer to the Blanco River and has twice the stream crossings (as compared to Alignment B2), inevitably being a greater source of runoff pollution and negative impact to the environment. However, it shouldn't take a scientist to clearly understand these concepts from just looking at the Initial Alignment Segments map. Alignment B1 route is simply not the right choice for a multitude of reasons. In summary, the proposed Alignment B1 segment is NOT within the Preferred Corridor. When compared to Alignment B2, B1 is not as cost-effective and less safe with greater negative impacts to the environment and state waters. Thank you for the opportunity to comment and for your consideration of my viewpoint.	Preference for B2 Environmental concerns	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.  Corridor C was identified in the earlier study through the Corridor Evaluation Report. Additional suggestions for preliminary alternative segments, including the B2 alignment, have been shared for evaluation through comments received from property owners and the public.  The environmental study is following the National Environmental Policy Act (NEPA) as an Environmental Impact Statement (EIS) and considerations including impacts to neighborhoods, personal property, traffic noise, and air quality will be evaluated and considered within the EIS.
34	Frank Pulis	11/8/2018	Email	Dear Sir/Madam; We attended your latest open house on Thursday, October 25th. We think the environmental review process is going well. However, we believe more consideration should be given to alignment segment P1. This is the most direct route North and West to the existing RM 150. The proximity to a 4(f) property can easily be resolved with only a slight deviation. Thank you for your consideration	Preference for P1 4(f) property	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.  As preliminary alternative segment options are narrowed down in this process, additional refinement and details will be added, such as modifications to avoid 4(f) properties.

35	Lana & Scott Nance	11/8/2018	Email	<p>At the Open House held October 25, 2018 at the Hays CISD PAC, we were informed that the primary reason for holding the event was to gather information regarding criteria being used to evaluate the various alternative routes for the RM 150 road. The team was looking for criteria we thought could be eliminated and other criteria that should be added and used for making the right decisions. The October 9th email reminder of the October 25th meeting included a statement that described the purpose of the proposed project to be "to relieve congestion and improve safety along the existing RM 150 roadway from west of Kyle to I-35, and to provide additional connections to the transportation network in this rapidly expanding area of Central Texas."</p> <p>To that end, the following is a list of criteria we believe should be considered when making judgements as to which route is the best in view of congestion, safety, and connectivity. We also urge that the decision-makers to give greater weight to project costs and ecological impacts than to other considerations, such as a "scenic route."</p> <p>1. Which of the proposed alignments has the fewest FEMA floodplain crossings?  a. With flooding events in Central Texas, the need for adequate roadway and emergency access during significant rain events is ever increasing. A proposed alignment which reduces the number of significant floodplain and drainage crossings has a better opportunity to provide safe and reliable access during heavy rainfall events.  2. Which of the proposed alignments is the most cost effective with respect to stream and floodplain crossings? The National Weather Service Atlas 14 precipitation study should be taken into consideration with this evaluation criteria.  a. A significant cost associated with roadways is adequately designed stream crossings. The higher a roadway stream crossing is within a watershed, the narrower the stream crossing is likely to be. This means shorter bridges and other types stream crossing structures.  b. For example, I recently received notice of a proposed floodplain revision (LOMR Case No. 18-06-1606P) for the first creek in segment B, just west of the boundary between Segment B and Segment C. The map accompanying this notification showed the existing 100-year flood plain and the approved revised 100-year flood plain. This map shows the 100-year flood plain to become narrower where Segment B2 crosses this creek and the 100-year flood plain became wider where Segment B1 crosses this creek. The 100-year flood plain is at least 150 feet wider at the B1 crossing than at the B2 crossing.  3. Which of the proposed segments has the shortest length?  a. The B-1/P5 option appears to be approximately 5,000 longer than the B-2/P6 option within Segment B. Shorter length means lower cost to design and construct the road, especially when combined with being higher in a watershed (see item 2 above).  4. Which of the proposed option has the shortest segment length through the Edwards Aquifer Recharge Zone?</p>	Evaluation Criteria	<p>Your preferences for the evaluation criteria have been noted.</p> <p>The consideration of the Edwards Aquifer (Contributing and Recharge Zone) is included in the evaluation criteria. The consideration of floodplains will not be used as an eliminating factor in the evaluation of the preliminary alternative segments, as there are often opportunities to adjust design to avoid and minimize impacts. Following this phase of the study, the preferred alternative segments will be combined to form continuous alternative alignments. During analysis of continuous alternative alignments, floodplains will be considered in the evaluation of overall project impacts and in the evaluation of reasonable alternatives. Length and cost are considered as part of Acres of Proposed ROW in the evaluation criteria.</p>
36	Pam Smith	11/8/2018	Email	<p>Official Comments: As home owners and business owners of the proposed road, Wayne and I (Pam) *first preference to the road would be to have D2 and D3 join together above our property. I have attached a picture of this and the marking as to where it looks like they could be joining, is highlighted in orange. This looks like on paper that there would not be as many curves. *Second preference would be to have 150 be D3. * Third preference would be to have 150 be D1 *Forth preference would be to have 150 be D2 The other areas above us are not close to our home and do not affect us, best left for the ones that it affects, so did not comment on these.</p>	Preference for D2/D3 combination followed by preference for D3, D1, D2 (in order of most preferred)	Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.
37	John & Kelly Sears	11/8/2018	Email	<p>As 13 year residents of Arroyo Ranch we are completely disappointed that there is even a consideration of a cut through route using Arroyo Ranch Road as a throughway in our neighborhood to FM 150. We live at 688 Arroyo Ranch Road and we purchased our home for the quaint, quiet and safe neighborhood. To even consider this plan is appalling. With all the space available, the proposed plan that has a major road way only 200 ft from the outer edge of our neighborhood is disheartening. We did not purchase a home to only have it turned into a through way or next to a major road way that would bring unwanted traffic, noise, and a decrease in quality of our homes and neighborhood.</p> <p>I would say that the best option is the P5 map/route that is furthest away from our neighborhood. We already have issues with traffic speeding down FM 150 from Driftwood towards Kyle and with a slight hill, it is extremely hard for our drivers in our neighborhood to truly enter and exit our subdivision without have to speed out in hopes that a car is not coming over the hill going 60-70 miles an hour. People do speed...a lot and often.</p> <p>To be clear, we are completely against making any part of Arroyo Ranch a throughway for traffic or having any major roadway so close to our neighborhood. If I had to choose, route P5 would be our choice.</p>	<p>Concern for cut-through traffic in Arroyo Ranch neighborhood  Safety concern at Arroyo Ranch and RM 150  Preference for P5</p>	<p>There are no plans to make new connections to the Arroyo Ranch neighborhood. The current configuration of roads in the Arroyo Ranch neighborhood only serves the local residents. The A2 route is adjacent to the neighborhood but does not provide additional access. To view a map of the preliminary alternative segments shared at this meeting: <a href="http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf">http://improve150.com/assets/rm150-preliminary-alternatives-segments-map.pdf</a></p> <p>Sight distance and safe turning radii will be evaluated for all intersections as a part of this study. Additionally, safety comments for the intersection of Arroyo Ranch Road and RM 150 have been shared with Hays County and TxDOT staff for evaluation.</p> <p>Your preferences have been noted and will be considered as preliminary alternative segments are evaluated.</p>

# Kyle OKs speed limit changes on Arbor Knot

and studies done by the Kyle Public Works Department, police and the city engineer's office.

"There are lots and lots of pets and children – it's that kind of neighborhood," said Nicki Pringle, a teacher and eight-year resident of Kyle, at the Aug. 7 meeting. "Over 300 families will use Arbor Knot as the path of least resistance when traveling home ... we want to preserve the safety and quality of the neighborhood."

Pringle said she collected more than 100 signatures after walking through her neighborhood. She said concerns arose after a car accident occurred in April where a speeding driver "side-swiped" a car and hit a

The request for the stop sign was approved by the city because it met criteria by being located close to a school. The street provides an entrance to the neighborhood across from the school and is a main road along the campus.

In an effort to slow that traffic and ease parent concerns, city officials ran two speed tests from June 25 to July 1 along the half-mile stretch of Arbor Knot Drive to determine the average speed of drivers along the road. The results of those tests were considered when voting on the ordinances.

Of the 1,395 vehicles that drove by during the test, officials found the majority of drivers, in the 85th percentile, drove at

an average speed of 26 mph.

The posted limit was 30 mph at the time of the test. The 15 percent of drivers outside of the average either drove over the limit or drove well under.

The highest speeds tracked were 48 mph and 88 mph. The new 25 mph speed limit is intended to affect those who sped well over the original posted limit without affecting the average driver in the area. "The residents of that

area came to us with quite a few signatures to request the signs," said Kyle City Manager Scott Sellers. "There are quite a few vehicles utilizing that road ... the residents would like to encourage slower driving."

## Dacy Lane Fixes

Continued from pg. 1A

kids that walk to school, and these kids have to walk on the grass as cars zoom by them," Delgado said. "I fear every morning I wake up for my children's safety and it doesn't seem like those concerns are addressed."

County officials have been made aware of this concern, but it is not yet known what changes may be made and when that deadline will occur.

Engineers and planners from LJA Engineering and county officials, including Commissioners Debbie Ingalsbe and Mark Jones, were among the crowd, answering any ques-

night progressed.

The LJA staff encouraged residents to submit comments throughout the night, as the plans presented are preliminary.

Hays County officials and LJA staff will review the comments and address any changes that may come before finalizing plans.

The Dacy Lane improvement project has been on the radar of Hays County officials for the past decade before Jones took office in 2010.

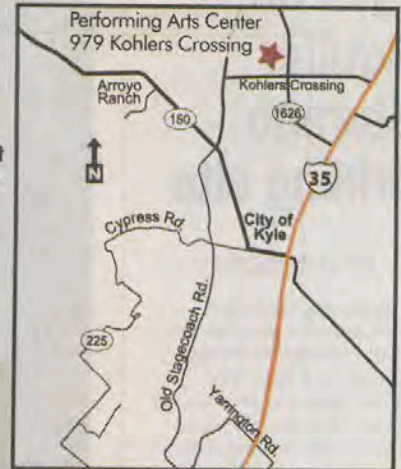

The project calls for the addition of through-lanes and shoulders on Dacy Lane. According to Hays

## OPEN HOUSE

Hays County and TxDOT are holding an open house to share updates and get public input on alignment alternatives for the RM 150 Alignment project.

The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 roadway from west of Kyle to I-35, and to provide additional connections to the transportation network in this rapidly expanding area of Central Texas.

RM 150 Alignment Project

<Salutation> < First Name> <Last Name>  
<Title>  
<Organization>  
<Address>  
<City>, <State> <Zip Code>

Dear <Title> <Last Name>:

Hays County, in cooperation with the Texas Department of Transportation, is holding an open house to share updates and gather public input on alignment alternatives for the RM 150 Alignment project. The meeting will be held on Thursday, Oct. 25, 2018 from 4 to 7p.m. at the Hays CISD Performing Arts Center, 979 Kohlers Crossing, Kyle, Texas 78640.

The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 roadway from west of Kyle to I-35, and to provide additional connections to the transportation network in this rapidly expanding area of Central Texas.

The need to improve RM 150 to a four-lane divided roadway was identified in the Hays County Transportation Plan in 2013. The County studied the area and held public meetings from 2014 through 2015. In 2018, the County and TxDOT began working together to conduct an Environmental Impact Study as part of the National Environmental Policy Act.

A public meeting was held in August of 2018, where 172 members of the public attended. More than 30 comments were received, providing valuable information which will help determine the ultimate alignment. At this meeting, alignment alternatives and information on how we propose evaluating those alternatives will be shared for public feedback.

You and your staff are cordially invited to attend this open house. A copy of the flyer is attached. Please consider sharing this information with staff and interested constituents.

Public meeting materials will be available online after the open house and comments collected by Nov. 8, 2018 will be included in the official record. If you would like additional information regarding the project, please reach out, or visit the project website: [www.improve150.com](http://www.improve150.com).

Sincerely,

**Hays County**  
Commissioner Mark Jones, Precinct 2  
Commissioner Ray Whisenant, Precinct 4

**TxDOT**  
Sonya Y. Hernandez, P.G.  
Project Manager

### ANOTHER CHANCE FOR THE PUBLIC TO WEIGH IN ON THE PROPOSED RM 150 ALIGNMENT PROJECT

*TxDOT and Hays County to host another open house*

Share This

Tweet This

Oct. 23, 2018

AUSTIN – The Texas Department of Transportation, in partnership with Hays County, is holding an open house to share updates and gather public input on alignment alternatives for the RM 150 Alignment project. The meeting will be held on Thursday, Oct. 25, 2018 from 4 to 7p.m. at the Hays CISD Performing Arts Center, 979 Kohlers Crossing, Kyle, Texas 78640.

There will be no formal presentation and attendees are invited to come and go at their convenience. At this meeting, alignment alternatives and information on how we propose evaluating those alternatives will be shared for public feedback. Attendees will be able to review project information, provide input, and visit with project team members. The open house materials will be available online after the meeting.

Comments will be accepted through Nov. 8, 2018 and can be submitted at the open house, online at [www.improve150.com](http://www.improve150.com), by email at [info@improve150.com](mailto:info@improve150.com) or by mail at RM 150 Alignment, P.O. Box 5459, Austin, Texas 78763.

The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 roadway from west of Kyle to I-35 and to provide additional connections to the transportation network in this rapidly expanding area of Central Texas.

The need to improve RM 150 to a four-lane divided roadway was identified in the Hays County Transportation Plan in 2013. The County studied the area and held public meetings from 2014 through 2015. In 2018, the County and TxDOT began working together to conduct an Environmental Impact Study as part of the National Environmental Policy Act.

A public meeting was held in August of 2018, where 172 members of the public attended. More than 30 comments were received, providing valuable information on the area and preferences for the project.

For more project information: [www.improve150.com](http://www.improve150.com). For media inquiries, contact [Bradley.Wheelis@txdot.gov](mailto:Bradley.Wheelis@txdot.gov) or (512) 832-7060

## Open House - RM 150 Alignment

[Texas Department of Transportation](#) > [Inside TxDOT](#) > [Get Involved](#)  
> [About Public Hearings, Meetings and Notices](#) > [Hearings, Meetings and Notices Schedule](#)

<b>Where:</b>	Hays CISD Performing Arts Center 979 Kohlers Crossing Kyle, TX 78640 ( <a href="#">Map</a> )
<b>When:</b>	Thursday, Oct. 25, 2018 4 p.m. - 7 p.m.
<b>Purpose:</b>	Hays County and TxDOT are holding an open house to share updates and get public input on alignment alternatives for the RM 150 Alignment project. Comments must be received on or before Nov. 8, 2018 to be a part of the official open house meeting record.
<b>Description:</b>	The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 roadway from west of Kyle to I-35, and to provide additional connections to the transportation network in this rapidly expanding area of Central Texas.
<b>Special Accommodations:</b>	TxDOT makes every reasonable effort to accommodate the needs of the public. The open house will be in English. If you have a special communication accommodation or need for an interpreter, a request can be made. If you have a disability and need assistance, special arrangements can also be made to accommodate most needs. Please call 512-533-9100 at least two working days prior to the meeting. Please be aware that advance notice is requested as some accommodations may require time for TxDOT to arrange.
<b>Memorandum of Understanding:</b>	The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

<b>Contact:</b>	TxDOT Austin District P.O. Box 15426 Austin, TX 78761-5426  (512) 832-7000  <a href="#">Email</a>  <i>Posted: Oct. 4, 2018</i>

**WELCOME TO IMPROVE150!**

This site is dedicated to transportation projects and initiatives on Ranch-to-Market 150 in Hays County.

RM 150 is currently a two-lane roadway that extends from RM 12 in Dripping Springs through Kyle to I-35 and beyond. It is one of three primary routes that runs east/west through Hays County and supports movements through the County to and from the I-35 corridor.

Hays County recognizes and appreciates the beautiful scenery of this area and understands the need to balance this unique character with any future improvement plans. It is the County's responsibility to provide reliable and safe transportation options and to accommodate current and future traffic and growth. By planning ahead, the County can coordinate and work together with property owners, businesses, and the community while planning for the future.

**RM 150 Alignment Project**  
**OPEN HOUSE**  
 Thursday, Oct. 25, 4-7 p.m.  
 Hays CISD Performing Arts Center  
 979 Kohlers Crossing  
 Kyle, TX 78640

[Details](#)

**Learn more about these ongoing Hays County initiatives:**

**COMMUNITY ENGAGEMENT**

Community participation is an integral and fundamental part of the transportation planning process. Hays County will provide meaningful opportunities for engagement and facilitate a collaborative process to share information and collect input.

We are committed to working closely with you throughout this project and are happy to meet with anyone interested in learning more. There will be many opportunities to get involved as this process continues.

## OPEN HOUSE

Hays County and TxDOT are holding an open house this Thursday to share updates on the RM 150 Alignment Project. At this meeting, alignment alternatives and information on how we propose evaluating those alternatives will be shared for public feedback.

### OPEN HOUSE

**Thursday, Oct. 25**

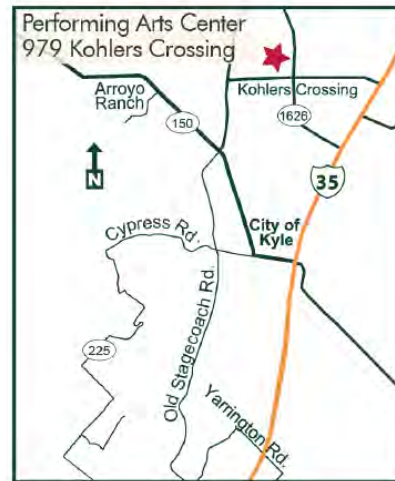

4-7 p.m.

Hays CISD Performing Arts Center

979 Kohlers Crossing

Kyle, TX 78640

Attend at your convenience, as this is an open house with no formal presentation.

Please share comments at the meeting or submit written comments by **Nov. 8, 2018** to be included in the official meeting documentation. Materials will be available online following the open house.

For special communication or accommodation needs, please make a request at least two days prior to the meeting and every reasonable effort will be made to accommodate these needs.

### August 2018 - Meeting Report Available

A public meeting was held August 2, 2018, where 172 members of the public attended. More than 30 comments were received, providing valuable information which will help determine the ultimate alignment. All public input

**OFFICIAL COMMENTS (Please Print):** Do you have any comments on the project, preliminary alternative segments, or evaluation criteria?

THE PROPOSED <sup>(A2)</sup> ORANGE AND <sup>(A2)</sup> PURPLE ROUTES DIRECTLY BEHIND THE HOMES IN ARROYO RANCHO WILL HAVE IMPACTS ON RESIDENTIAL DISPLACEMENTS. IT WILL ALSO IMPACT THE WATER RUN OFF AREAS.

BOTH PROPOSED ROUTES WOULD ENTER 150 IN AN AREA THAT WOULD INCREASE ALREADY DANGEROUS CONDITIONS. THERE IS A RIDGE THERE WHICH CURRENTLY MAKES EXITING ARROYO RANCHO DIFFICULT ~~THIS~~ THE AREA DIRECTLY ACROSS 150 FROM ARROYO RANCHO IS ALREADY APPROVED FOR A VERY LARGE NEW SUBDIVISION. WHEN YOU ADD CURRENT ARROYO RANCHO RESIDENTS EXITING ONTO 150 WITH THE NEW SUBDIVISION AND THE PROPOSED ORANGE + PURPLE WITH NO TRAFFIC CONTROL DEVICES WITH THE RIDGE... I BELIEVE THIS WILL HAVE FATAL CONSEQUENCES.

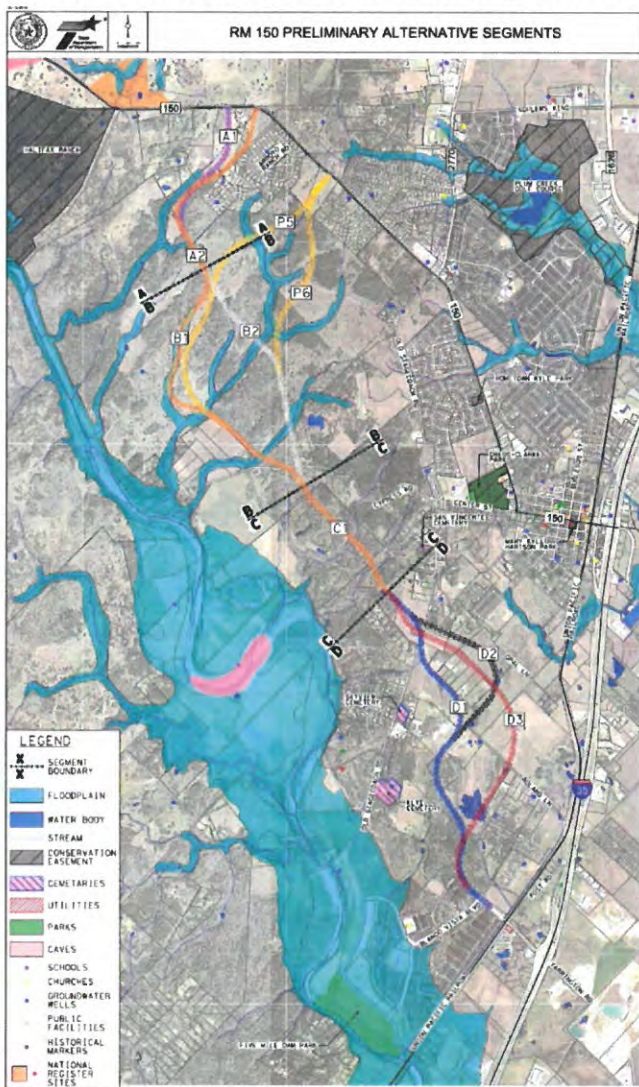

THE PROPOSED <sup>(P5106)</sup> YELLOW PLAN APPEARS TO BE THE SAFEST ROUTE. EITHER WAY I WOULD LIKE ALL ROUTES AS FAR AWAY FROM THE BACK OF THE ARROYO RANCHO PROPERTY LINE.

**OFFICIAL COMMENTS (Please Print):** Do you have any comments on the project, preliminary alternative segments, or evaluation criteria?

My comment on the criteria for analyzing various segments: I would think it is important to consider if adequate drainage is available, and also to consider the impact to water quality of the various routes to the Blanco River and various creeks.

**OFFICIAL COMMENTS (Please Print):** Do you have any comments on the project, preliminary alternative segments, or evaluation criteria?

Aside from D-2 going right through my house, I feel that D-1 (1st choice) & D-3 are better options. Traffic flow seems better under D-3 & Roband lane (+ existing easements) work for D-1, although Wildcat Hollow people may not like that. D-3 seems least disruptive and most straightforward.

D-2 - we have hundred thirty-six live oak trees around the house, some quite large. It would be awful to lose them. We've spotted many birds including some that should not even be in this area.

We work & live on the property. I also think that D-2 is too close to Opal lane & other homes.

No native trees on D-3. Another "pro" for D-3 (at least not near my property & I don't think that there are any across the street).

I got a few calls from a gas pipeline company. Are you also working with them? I have denied them voluntary access to my 6 acres, although we are aware that we may have no choice at some point.

Thanks Anna

**OFFICIAL COMMENTS (Please Print):** Do you have any comments on the project, preliminary alternative segments, or evaluation criteria?

Preference <sup>(#1)</sup> D2 - in between 2 properties (plenty of space)  
 (#2) - D3 - behind our house - more ideal;  
 road would be straighter  
 D1 would run right in front of house  
 + too winding (safety); would impact  
 view; impacts more homes

In looking at Map we suggest that

B-2 (white) on Map come straight and intersect with  
C-1 (orange) on Map - a much straighter route  
and would cost less money -  
safer road than winding as it shows  
on B-1 -

I believe A-1 is the best route that would pull some of the traffic AWAY from the entrance to Arroyo Ranch. It needs a center turning lane to allow us to safely enter our neighborhood.

The northend of Alternative Segment A I deadends at FM 150 across from my existing entrance as shown on attached satellite photo copy. I do not want my ranch entrance part of a major intersection. I do not intend to subdivide and do not want an extension of the roadway north of 150 on this part of my property. It is part of a 288 acre property on the National Register of Historic Places.

Public Involvement Team  
RM 150 Alignment Project, West of Kyle to IH 35  
PO Box 5459  
Austin, TX 78763

October 25, 2018

To Whom It May Concern,

Thank you for the open house and opportunity for input. There is a section of the project that I would like to bring to your attention that has generated much concern for many residents in the neighborhoods along RM 150 from Arroyo Ranch at Arroyo Ranch Road to at least Hometown Kyle at Hawthorn Drive (and beyond to the east).

The intersections along RM 150 from Arroyo Ranch Road (shown in the included figures) appear to have become especially dangerous in the past several years. We have lived in the neighborhood for nearly 15 years and have observed an increase in near-miss incidents and actual collisions. This information is not anecdotal, and data records can be seen on the state's crash record information system (<https://cris.dot.state.tx.us/public/Query/app/public/welcome>). I have personally been in several near-miss incidents, and they happen from both the east and west bound traffic.

Additionally, the neighborhoods would benefit considerably from the installation of bike lanes and sidewalks. In their current state, residents have only one mode of transportation to consider when they need to leave the neighborhood for goods and services. Having other means of getting from the neighborhoods to other nearby areas would help to connect communities, and would bring the transportation system to at least the same level of modernity as surrounding areas that have sidewalks and bike lanes.

## Problems to Consider:

---

### Hazardous Intersections at Neighborhood Entrances

At Arroyo Ranch - East bound traffic on approach to the entrance of the Arroyo Ranch neighborhood is typically traveling above the speed limit. Sometimes they are not. Either way, they have a limited sight distance problem – as they travel east towards the entrance they are traveling uphill, and as they crest the hill they are presented with a short distance, approximately 750 feet, to the entrance of the neighborhood. Vehicles leaving the neighborhood, that turn right (eastbound), are very frequently overtaken and most often tailgated and harassed by east bound RM 150 traffic. If they pass and speed ahead then they are endangering the vehicles that are coming out of or going into the other neighborhoods (Dove Hollow for example).

West bound traffic on approach to the Arroyo Ranch neighborhood must slow down to turn into the neighborhood. It happens time and time again, so frequently that I have lost count that west bound traffic has nearly collided into my vehicle from behind. The Crash Record Information System shows data that indicate the intersection has become more dangerous over time.

The problem is bad at the intersection at Arroyo Ranch, but not exclusive to that intersection. All of the neighborhood intersections east of Arroyo Ranch experience some version of these problems.

Vehicles (people) coming from and going to Meadow Woods, Quail Meadows, Dove Hollow Estates, and every small ranch in between Arroyo Ranch and Jack C Hays Trail (FM 2270/Old Stagecoach Road) experience this.

## Lack of Biking and Walking Infrastructure: Communities Lacking Sidewalks and Bike Lanes

Biking and walking along RM 150 is terribly hazardous. In order to access goods and services in the nearby areas in the least hazardous way people must travel by motor vehicle. The area around Arroyo Ranch will potentially have a bypass route turning south from RM 150 just west of Arroyo Ranch Road, and that new road may help some, but the very large ranch to the north of Arroyo Ranch neighborhood has submitted application to subdivide. The conceptual plans for that development include construction of possibly several thousand new homes. In short, the area is poised for tremendous population increase, i.e., vehicle increase, and the currently communities in the area are completely vehicle dependent.

“Bicycling and walking historically have been important means of transportation and recreation in the United States. Since World War II, however, the development of automobile-oriented communities has led to a steady decline of bicycling and walking. These activities became lost in the dustbin of history and limited to childhood play. During the past few years, however, a renaissance has occurred with impressive increases in the number of people who bicycle and walk for transportation and recreation. Record gas prices, a gridlocked transportation system, increasing health maladies related to physical inactivity, and environmental concerns have led to a reexamination of the transportation choices available in this country and to a subsequent shift from driving to more walking and bicycling.

Today, people of all ages, income groups and fitness levels use walking and bicycling for everyday travel, recreation, and getting to and from work. It is important to remember that approximately one-third of the population is unable to drive—because of age, disability, choice or license restrictions—so bicycling and walking are important transportation options. Public transit, which is primarily reached on foot or by bicycle, also has experienced significantly increased use during the past few years. Pedestrians and bicyclists suffer the effects—sometimes fatal—of a transportation system that does not account for their needs. All road users— including motorists, bicyclists and pedestrians—must act responsibly and follow the rules of the road for their own and others’ safety. It lies with state governments, however, to play the primary role in ensuring that roads are safe and accommodate all users.

Many people are bicycling and walking more because of the many benefits these transportation choices provide. Walking and bicycling offer cheap, effective ways to reach a destination, especially with the likelihood of higher gas prices. Furthermore, they provide a variety of benefits to individuals and society. Both are clean forms of transport that emit no pollutants. With disturbing increases in diseases and ailments related to lack of exercise, active commuting also is an effective way to combat diseases related to inactivity, especially for those who have time constraints. Communities where destinations are easy to reach by bike and foot create a more balanced transportation system and more welcoming neighborhoods.”

(Referenced from Shinkle, D., Tiegen, A., *Encouraging Bicycling and Walking, The Legislative Role*, National Conference of State Legislatures, November 2008)

## Solutions to consider:

---

### **Widen RM150, center Flush Median, Increased Shoulder Width.**

Increasing safety and decreasing congestion should be a primary objective for this project. To this end, widening the roadway, installing a flush center median (continuous center turn lane), and increasing shoulder width would provide a much needed margin of safety for the traveling public in this area. Additionally, installing acceleration lanes for vehicles right-turning out of neighborhoods and deceleration lanes for vehicles right-turning into neighborhoods, would help decrease risk of collisions, and enhance mobility in general. Night time visibility along this stretch of road can be enhanced by installation of lighting along the route, or at least by increasing the lighting at neighborhood entrances.

### **Biking and Walking Infrastructure: Sidewalk Installation along RM 150–Connecting Communities**

Enable alternative means of transportation and enhance community connections by the installation of installing biking and walking infrastructure, i.e., continuous sidewalk from Arroyo Ranch to Old Stagecoach, and from Old Stagecoach to City of Kyle. Doing this will connect the following neighborhoods (from west to east): Arroyo Ranch neighborhood at Arroyo Ranch Road, Meadow Woods neighborhood at Sunflower Drive, Quail Meadows neighborhood at Quail Meadow Drive, Dove Hollow neighborhood at Dove Hollow Drive, Plum Creek neighborhood, Hometown Kyle neighborhood at Autumn Sage Parkway and Hawthorn Drive, Brooks Crossing neighborhood at Roy Brooks Avenue, and the neighborhood at Silverado Drive (where a sidewalk begins there and continues toward the City of Kyle).

All of these neighborhoods would benefit tremendously from sidewalk installation. In order for anyone in these neighborhoods to access goods and services in the nearby area they must travel by motor vehicle. It is unsafe to attempt to bicycle from any of these neighborhoods, and there is no place to safely walk along the side of the road.

Communities will be connected to each other, to stores, services, food and retail outlets, convenience stores, the post office, banks, schools, city government.

### **Reducing the Speed Limit**

Additionally, the speed limit should be reduced significantly in the affected area. Reduced speed should begin well before and to the west of Arroyo Ranch and continue as reduced speed all of the past Jack C Hays Trail (FM 2270/Old Stagecoach Road).

Consider also that these problems are going to be compounded significantly when development begins and more houses are built on the north side of RM 150 right across the street from Arroyo Ranch neighborhood. There is an application to subdivide notice posted in the vicinity, and the master plan /concept shows several hundred houses planned in the next few years.

Jubal Grubb  
171 Calle Largo, Kyle TX 78640

## Reducing the Speed Limit

For now, the sign on RM 150 (to the west of Arroyo Ranch) simply indicates that there is limited sight distance ahead but does nothing to slow vehicles cresting the hill. If possible, rumble strips, flashing light intersection indicator, electronic radar speed indicator signage, or something is needed in the near-term.

## Summary:

---

- Widen the existing 2-lane undivided highway to a 2-lane (or 4-lane) highway with a flush median (continuous left turn lane)
- The typical section would consist of 2 (or 4) 12-foot travel lanes, a 16-foot continuous left turn lane, six-foot bike lanes, and five-foot sidewalks.
- Reduce the speed limit from 55 to 45 beginning west of Arroyo Ranch Road.
- Increase lighting at key intersections including neighborhood entrances.
- Bonus: roadway beautification through pollinator planting.

I would appreciate if you would consider these safety and infrastructure development concerns, and incorporate these solutions into the planning, concepts, schematics, and final design.

Also, I would greatly appreciate if you would keep the communities informed of the next public involvement events through postcard mailouts.

Thank you very much,

Jubal Grubb

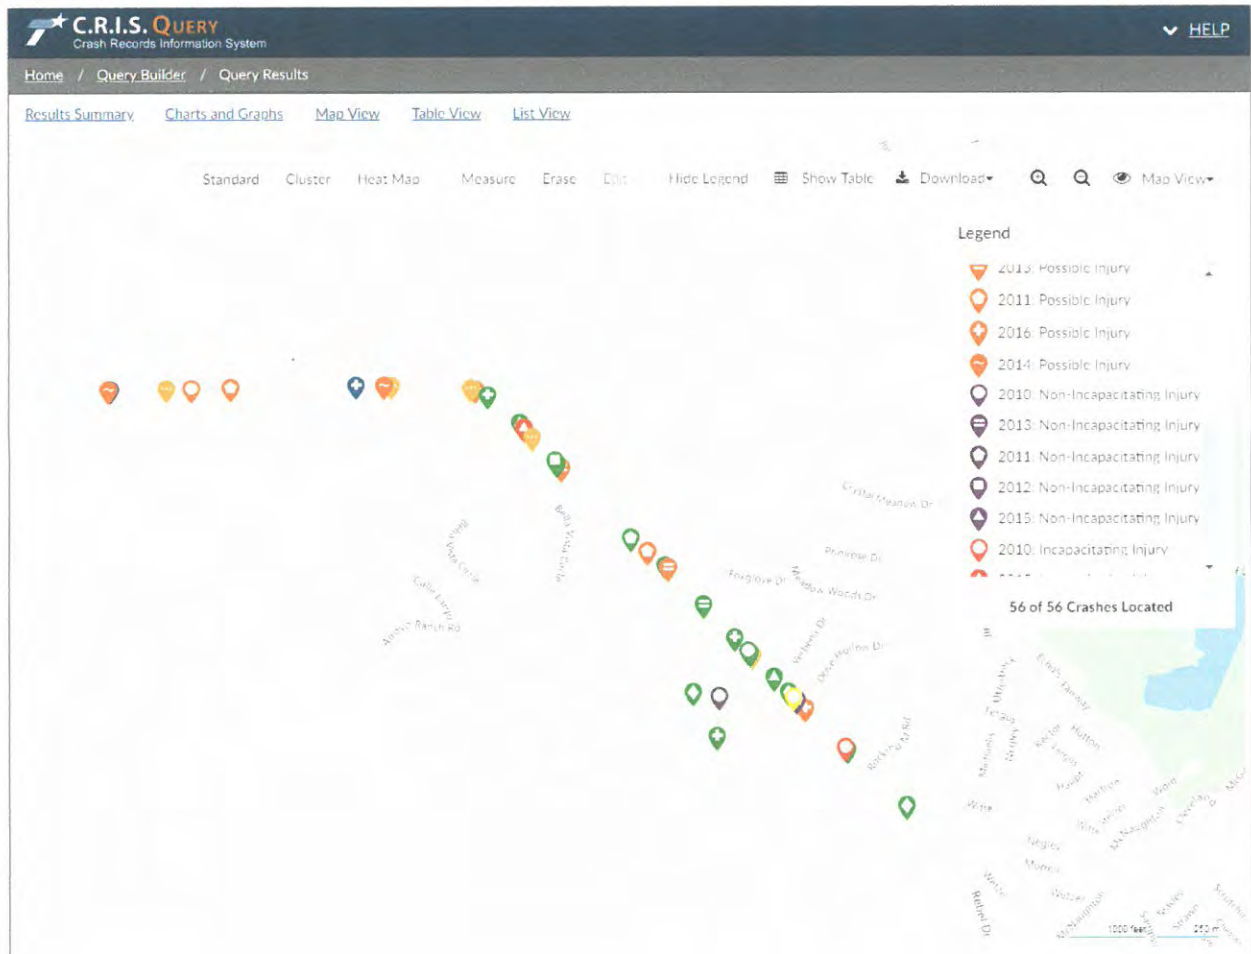

(p.s. Y'all are doing a great job)

Figures attached include only RM 150 between Arroyo Ranch and Jack C Hays Trail (FM 2270/Old Stagecoach Road). However, the facility improvements proposed include from Arroyo Ranch Road to City of Kyle. The area between Arroyo Ranch and Jack C Hays Trail has significant need of these improvements, and I would suggest that the project begin in this area.

**Comment:** We live in Arroyo Ranch subdivision and have MAJOR concerns about the FM 150 connection west of our neighborhood. A hill blocks the view when enter/exiting our neighborhood, which is extremely dangerous. There have been many accidents at our entrance and additional traffic that close to us would only increase the danger. The proposed connection(yellow option) would be much better for all involved. The connection to I-35 is a great idea, just praying you all hear our concerns and not put the connection west of our neighborhood. We appreciate your consideration.

**State:**

**Comment:** I am concerned about the safety of the 2 routes that are proposed north/west of Arroyo Ranch road. Those routes appear to intersect FM 150 at a spot where there is a curve and a blind hill. It is already difficult and somewhat dangerous to turn into Arroyo Ranch and get out of Arroyo Ranch onto FM 150. This would just increase the traffic flow very near the entrance to that subdivision. Additionally, if Arroyo Ranch Road eventually becomes a pass through, it will make the neighborhood dangerous for the families who live there. Please take this into consideration. The more southern route appears to be safer for Arroyo Ranch residents and it appears that route would not impact any neighborhoods as greatly.

**Phone:**

**State:** TX

**Comment:** The Urban Road Configuration shows bicycles riding in the gutter. This is impossible due to city/county use of "wheel trap" storm drains, which slope suddenly sideways and trap the front wheel, throwing the biker into traffic. RM150 should implement bike-safe storm drains like parts of Post Road in San Marcos. Also, the Rural Roadway Configuration shows bicycles riding on sidewalk, which is dangerous to everyone involved: vehicles crossing the sidewalk will collide with bicycles, and pedestrian-bicycle collisions. Placing stop or yield signs at every crossing and driveway on the sidewalk or "bike path" hinders bicycles relative to the flow of traffic on RM150 itself, in violation of Texas Transportation Code 551.101. Instead post signs indicating "Yield to bike path." For example:

**Comment:** It appears to me that D1 provides the best early route and that B2 provides the best route in that section. My concern is over the intersections with Old Stagecoach. As I am sure you know, Old Stagecoach is the primary cycling route from Austin to San Marcos with several large groups of riders on that road every weekend. My fear is that all it takes is one careless driver not paying attention to take out a large group. Is there going to be any kind of overpass to keep traffic moving through there without putting cyclists at risk?

Thank you for all the displays and personnel you provided at this meeting. Especially the display regarding the criteria that will be used to determine the final route of the roadway.

After reviewing this information, I would like to provide my recommendation for your consideration and I hope it meets the criteria established for approval.

I support the route as follows;

"A" to "A2" to "B2" to "C" to "D2" & "D3" (I suggest D2 be combined with D3 behind and to the North of the row of houses on Roland Lane, forming a gentle curve toward Roland Lane)

I do not think the double curve of "D2" is the safest route.

Thank you for allowing me an opportunity to comment.

**Subject:** NEGATIVE IMPACT ON ARROYO RANCH NEIGHBORHOOD  
**Date:** Wednesday, November 7, 2018 3:10:23 PM

---

The proposed roadway is TOO CLOSE to our neighborhood and will directly affect 20 homeowners.

This road should expand the boundary away from this edge of our neighborhood. As is, the increased noise, fumes and pollution will have a negative impact on the entire neighborhood.

We are against the road as proposed and suggest a wider buffer between the road and our property lines.

Thank you.

I was really disappointed to understand that the developers/engineers shared that they haven't gotten any feedback regarding the expansion of 150 in Kyle, Texas.

My husband, myself and my oldest son are some of the original home owners in Arroyo ranch. We have watched the development in our own immediate neighborhood as well as the City of Kyle. We are active readers of information and have attended meetings regarding the expansion. I'm sad to hear the meeting I didn't attend that supposedly there haven't been any contest to the proposals. You are correct, because the first any of us actually heard or saw of the proposal was the night of Oct 26<sup>th</sup>.

I have a concern for the proposed routes that make Arroyo Ranch a Drive through for 150. This is neighborhood, with families and children. Shame on the developers who cannot see that and think this is a safe idea. When was the last time you tried to turn into our neighborhood and pray to God that the person coming up on your rear stops so that you can make the L into the neighborhood. Or better yet, try to make the Right out with a hill blocking your view ?

I understand that a road and route is much needed. I'm not sure all the options are even considered viable.

I would ask that you consider the yellow routes that are on the proposed plans P5.

Thank you for the time and appreciate the consideration.

Hello,

In regards to the 150 expansion meeting last week, some of the proposed recommendations are troubling in regards to my neighborhood. The purple and orange routes are projected to go directly against the back property lines of Arroyo Ranch with the 150 high speed roadway. (The purple one is 200 ft away from the property lines of Arroyo Ranch) Both of those will enter just west of us on the other side of the hill. Exiting our neighborhood is already difficult and this along with the projected new neighborhood that will be built across from us will make the road even more dangerous. If this project does go forward, TXDOT could/would consider eventually buying the land at the end of Arroyo Ranch and making a direct cut through to the 150 expansion which would make our neighborhood a drive through. I am an Arroyo Ranch resident and do not agree with the proposed changes.

Thanks,

Colleen Villarreal

We have lived in Arroyo Ranch for 15 years, and I have lived in Kyle since 1982. I am abundantly aware of its growth.

I attended the first two Improve 150 meetings, where all of the options were laid and out and then reduced to two. My primary concern with the remaining possible corridors has always been the possibility of a cut-thru from Arroyo Ranch, although I just heard that it was being discussed only recently. Just because you CAN make it convenient for drivers, doesn't mean you HAVE to. But you damn well better respect the safety of our children in your effort to "improve safety along the **existing RM 150 roadway.**" There is nothing safe about deliberately funneling more traffic through a residential neighborhood.

Our kids ride their bikes, play ball and run back and forth from each others' houses, safe in the knowledge that people aren't speeding through the neighborhood trying to get to San Marcos 2 minutes faster. The school district has reduced the number of bus stops, requiring kids to walk farther at the exact same times drivers would be enjoying these "additional connections to the transportation network in this rapidly expanding area."

I don't want to see my little community become another Shady Hollow, and I'm pretty sure no one in a decision-making capacity would want that for their community.

**Subject:** Comment: RM 150 Preliminary Alternative Segments  
**Date:** Thursday, November 8, 2018 2:37:10 PM

---

As a Hays County taxpayer, I want to express my support for the proposed Alignment B2 over Alignment B1. First and most importantly Alignment B2 is within Corridor C, which was identified previously as the “Preferred Corridor” (whereas B1 is not). Corridor C was characterized as “Preferred” for several valid reasons as stated in the documentation from the Public Meeting held on August 2, 2018, being: [1] Consistent with the Hays County Transportation Plan; [2] Provides the most feasibility constructability; [3] Avoids impacts to business and public facility resources; [4] Allows for wider range of alternative alignments; [5] Best meets transportation needs of the study area; [6] and Balances human and natural environmental impacts without inhibiting future growth and development of the community. I assume that all these reasons were carefully considered by stakeholders and if the proposed alignment were to be constructed outside of Corridor C (e.g., Alignment B1), it completely goes against the RM 150 Corridor Evaluation as stated, published, and supported by RM 150 Alignment, Hays County, and TXDOT.

Other reasons to support Alignment B2 over Alignment B1 are that B2 is a shorter route (less cost to construct) and more of a straight path (improved safety due to less turns), both which support the stated purpose of the proposed project “to relieve congestion and improve safety along the existing RM 150 roadway from west of Kyle to I-35”. Another area of concern is that Alignment B1 will cross twice as many stream crossings as B2, increasing the cost of construction as well as have the potential for greater impacts to the environment.

As a scientist with over 20 years of experience with assisting in managing and protecting the state’s aquatic resources, I also have concerns with Alignment B1 in regards to the environmental and aquatic impacts associated with the construction and use of this proposed route. The EPA maintains that “Roads, highways, and bridges are a source of significant contributions of pollutants to our nation’s waters” [<https://archive.epa.gov/owow/NPS/roads.html>]. The proposed route for Alignment B1 is much closer to the Blanco River and has twice the stream crossings (as compared to Alignment B2), inevitably being a greater source of runoff pollution and negative impact to the environment. However, it shouldn’t take a scientist to clearly understand these concepts from just looking at the Initial Alignment Segments map. Alignment B1 route is simply not the right choice for a multitude of reasons.

In summary, the proposed Alignment B1 segment is NOT within the Preferred Corridor. When compared to Alignment B2, B1 is not as cost-effective and less safe with greater negative impacts to the environment and state waters. Thank you for the opportunity to comment and for your consideration of my viewpoint.

---

Dear Sir/Madam;

We attended your latest open house on Thursday, October 25<sup>th</sup>.

We think the environmental review process is going well.

However, we believe more consideration should be given to alignment segment P1. This is the most direct route North and West to the existing RM 150.

The proximity to a 4(f) property can easily be resolved with only a slight deviation.

Thank you for your consideration  
Sincerely,

*Frank and Susan Pulis

**Subject:** RESPONSE TO THE REQUEST FOR COMMENTS TO THE INFORMATION PROVIDED AT THE OCTOBER 25, 2018 OPEN HOUSE AT THE HAYS CISD PAC  
**Date:** Thursday, November 8, 2018 3:53:04 PM

---

At the Open House held October 25, 2018 at the Hays CISD PAC, we were informed that the primary reason for holding the event was to gather information regarding criteria being used to evaluate the various alternative routes for the RM 150 road. The team was looking for criteria we thought could be eliminated and other criteria that should be added and used for making the right decisions.

The October 9th email reminder of the October 25<sup>th</sup> meeting included a statement that described the purpose of the proposed project to be “to relieve congestion and improve safety along the existing RM 150 roadway from west of Kyle to I-35, and to provide additional connections to the transportation network in this rapidly expanding area of Central Texas.”

To that end, the following is a list of criteria we believe should be considered when making judgements as to which route is the best in view of congestion, safety, and connectivity. We also urge that the decision-makers to give greater weight to project costs and ecological impacts than to other considerations, such as a “scenic route.”

1. Which of the proposed alignments has the fewest FEMA floodplain crossings?
  - a. With flooding events in Central Texas, the need for adequate roadway and emergency access during significant rain events is ever increasing. A proposed alignment which reduces the number of significant floodplain and drainage crossings has a better opportunity to provide safe and reliable access during heavy rainfall events.
1. Which of the proposed alignments is the most cost effective with respect to stream and floodplain crossings? The National Weather Service Atlas 14 precipitation study should be taken into consideration with this evaluation criteria.
  - a. A significant cost associated with roadways is adequately designed stream crossings. The higher a roadway stream crossing is within a watershed, the narrower the stream crossing is likely to be. This means shorter bridges and other types stream crossing structures.
  - b. For example, I recently received notice of a proposed floodplain revision (LOMR Case No. 18-06-1606P) for the first creek in segment B, just west of the boundary between Segment B and Segment C. The map accompanying this notification showed the existing 100-year flood plain and the approved revised 100-year flood plain. This map shows the 100-year flood plain to become narrower where Segment B2 crosses this

creek and the 100-year flood plain became wider where Segment B1 crosses this creek. The 100-year flood plain is at least 150 feet wider at the B1 crossing than at the B2 crossing.

2. Which of the proposed segments has the shortest length?
  - a. The B-1/P5 option appears to be approximately 5,000 longer than the B-2/P6 option within Segment B. Shorter length means lower cost to design and construct the road, especially when combined with being higher in a watershed (see item 2 above).
3. Which of the proposed option has the shortest segment length through the Edwards Aquifer Recharge Zone?

Official Comments:

As home owners and business owners of the proposed road, Wayne and I (Pam)

\*first preference to the road would be to have D2 and D3 join together above our property.

I have attached a picture of this and the marking as to where it looks like they could be joining, is highlighted in orange.

This looks like on paper that there would not be as many curves.

\*Second preference would be to have 150 be D3.

\* Third preference would be to have 150 be D1

\*Forth preference would be to have 150 be D2

The other areas above us are not close to our home and do not affect us, best left for the ones that it affects, so did not comment on these.

Thank you,

Pam Smith

---

Good evening,

As 13 year residents of Arroyo Ranch we are completely disappointed that there is even a consideration of a cut through route using Arroyo Ranch Road as a throughway in our neighborhood to FM 150. We live at 688 Arroyo Ranch Road and we purchased our home for the quaint, quiet and safe neighborhood. To even consider this plan is appalling. With all the space available, the proposed plan that has a major road way only 200 ft from the outer edge of our neighborhood is disheartening. We did not purchase a home to only have it turned into a through way or next to a major road way that would bring unwanted traffic, noise, and a decrease in quality of our homes and neighborhood.

I would say that the best option is the P5 map/route that is furthest away from our neighborhood. We already have issues with traffic speeding down FM 150 from Driftwood towards Kyle and with a slight hill, it is extremely hard for our drivers in our neighborhood to truly enter and exit our subdivision without have to speed out in hopes that a car is not coming over the hill going 60-70 miles an hour. People do speed...a lot and often.

To be clear, we are completely against making any part of Arroyo Ranch a throughway for traffic or having any major roadway so close to our neighborhood. If I had to choose, route P5 would be our choice.

John and Kelly Sears

# WELCOME

RM 150: From West of Kyle to I-35  
Oct. 25, 2018

Thank you for your interest in the RM 150 project. The purpose of this meeting is to share project information, alignment alternative segments, and the criteria for evaluating them. Please review exhibits, visit with the project team, ask questions, and provide your feedback.

Your input and comments are valued. Please share comments by completing a comment card or emailing them to: [info@improve150.com](mailto:info@improve150.com)

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

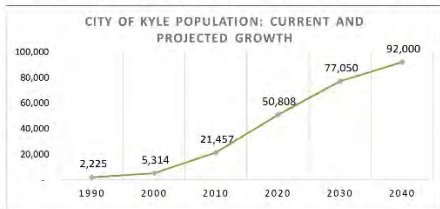

## PURPOSE AND NEED

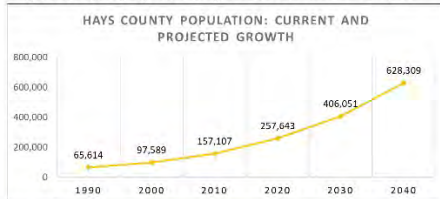

The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 facility from west of Kyle to I-35 and to provide additional links in the transportation network in this growing Central Texas region.

### Congestion

The City of Kyle is projected to grow 329% from 2010-2040

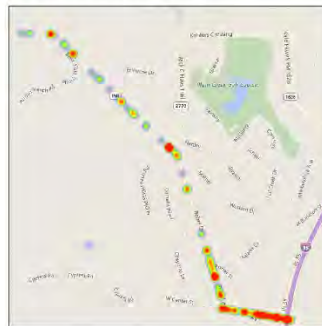

Hays County is projected to grow 300% from 2010-2040

Source: Census Bureau, TWDB 2016 Water Plan, CAMPO 2040 RTP

### Safety

- 254 reported crashes (2010-2017)
- Crash rate on RM 150 is higher than the statewide average

Source: TxDOT CRIS. The heat map shows the location of crashes on RM 150, with red indicating greater crash activity and green indicating lower crash activity.

### System Linkage

- Limited connections to I-35
- UP railroad at Center Street causes backup

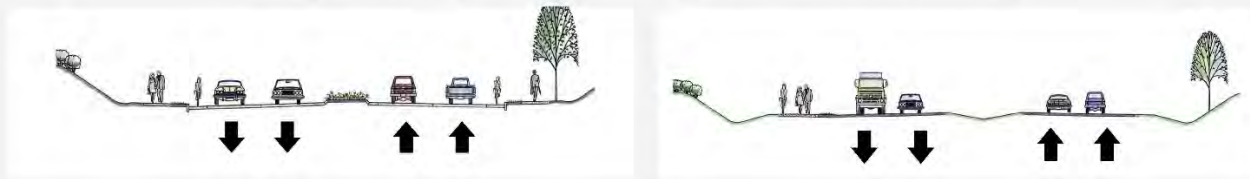

## PROJECT DESCRIPTION

### This Project Includes

- Evaluation of alternative segments to identify the location for RM 150
- Preliminary design of a four-lane divided road
- Bicycle and pedestrian accommodations

### Example Roadway Configurations (urban and rural sections)

To construct this type of road, a minimum of 150 feet of right of way would be needed. Through this process, the right of way and roadway configuration would be refined, and the bike and pedestrian accommodations would be identified.

## TRAFFIC DEMAND

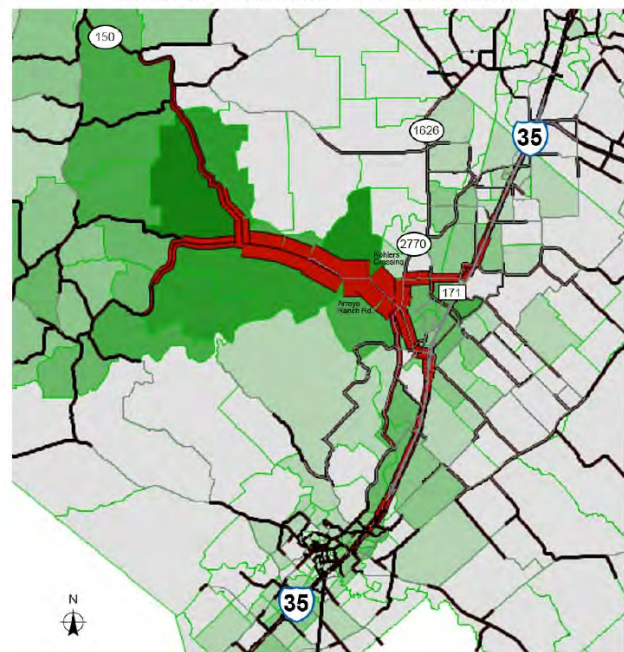

Traffic conditions were studied and modeled based on population projections through the year 2040 for Hays County.

### Growth Considerations

- In Hays County, near Kyle, the area with the lowest population density and the most available land is to the west of I-35
- Currently traffic on the west side of I-35 has access to three interchanges (FM 1626, Center Street, and Yarrington Road)
- RM 150 will continue to experience a growing traffic demand

2040 Forecasted RM 150 Traffic Demand

**Origin Destinations** (locations RM 150 traffic is coming from/going to; darker colors represent higher volume)

**RM 150 Traffic Volume**

# POTENTIAL ENVIRONMENTAL CONSTRAINTS

# PROJECT PROCESS

**Summer 2018**  
Share initial alternative segments, purpose and need, project updates and gather input

**We Are Here**

**Winter 2018-Spring 2019**  
Perform technical analysis and prepare Draft Environmental Impact Statement (EIS)

**Summer 2020**  
Receive Environmental Decision

**Fall-Winter 2018**  
Share preliminary alternative segments, evaluation considerations, and gather input

**2019-2020**  
Continue studies, share Draft EIS, agency coordination, share Final EIS

This timeline is preliminary and subject to change.

## Stay Involved!

- Attend public meetings
- Share input
- Reach out with questions or request a meeting

# INITIAL ALIGNMENT SEGMENTS

## Initial Alignment Segments

- 8 segments were shared with the public on Aug. 2, 2018
- 11 segments were added due to public input
- All 19 were screened
- 10 alignment segments will move forward for more detailed analysis and evaluation

Initial Alignment Segments Removed																				
	Metric	A1	A2	B1	B2	C1	D1	D2	D3	P1	P2	P3	P4	P5	P6	P7	P8	P9	P10	P11
<b>Previously Evaluated or Similarity</b> Was the alignment studied and eliminated in previous Corridor Evaluation Report and/or similar to another proposed alignment?	Yes/No	No	No	No	No	No	No	No	No	No	No	Yes	Yes	Yes	No	No	No	No	No	Yes
<b>Design Criteria</b> Does the route conflict with Federal or State geometric or design safety criteria?	Yes/No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	Yes	No	No
<b>Major Neighborhood Impact</b> Does the route bisect an existing neighborhood?	Yes/No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	No
<b>Cemetery</b> Does the route impact any cemeteries?	Yes/No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	Yes	Yes	No	Yes	No
<b>Rail Crossing</b> Does the route require a new railroad crossing?	Yes/No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	No	Yes	No	No
<b>Known 4(f) Properties</b> Does the route conflict with any known 4(f) properties?	Yes/No	No	No	No	No	No	No	No	No	Yes	No	No	No	No	No	No	No	No	No	No

# ANALYSIS OF PRELIMINARY ALTERNATIVE SEGMENTS

- First, all preliminary alternative segments will be evaluated for environmental considerations, ROW impacts, and engineering considerations
- Second, the remaining alternative segments will be combined to form continuous alternative alignments and will be evaluated for meeting the purpose and need
- Share comments on the draft criteria by completing a comment card or submitting by Nov. 8, 2018

Criteria	Preliminary Alternative Segments										
	A1	A2	B1	B2	P5	P6	C1	D1	D2	D3	
<b>Environmental Considerations</b>											
Acres of Impervious Cover in Edwards Aquifer (Contributing and Recharge Zones)											
Acres of Golden-Cheeked Warbler Habitat in Proposed ROW											
Number of Stream Crossings											
Number of Impacts to Section 4(f) Properties (Parks and Historic Sites)											
<b>Right of Way Impacts</b>											
Acres of Proposed ROW Requirements											
Number of Parcels Affected											
Potential Residential and Commercial Displacements											
<b>Engineering Considerations</b>											
Number of Anticipated Bridge/Culvert Crossings											

Purpose and Need (Yes or No)
Relieves Traffic Congestion Along the Existing RM 150
Improves Safety Along the Existing RM 150
Provides Additional Links in the Transportation Network

Hays County, in cooperation with the Texas Department of Transportation, is working on the RM 150 alignment project from just west of Kyle to near I-35.

The purpose of the proposed project is to relieve congestion and improve safety along the existing RM 150 facility from west of Kyle to I-35 and to provide additional links in the transportation network in this growing Central Texas region.

**We want to hear from you!**
